

Directory of US Building Materials and Services for Japan

'07-'08 Edition

Directory of US Building Materials & Services for Japan (2007-2008)

Cost/Directory Listing:

- EBPA Member: \$100
- Washington State Companies: \$125

Published by: Evergreen Building Products Association,
Washington State Office of Trade & Economic Development

Registration Deadline: Fri., July 27, 2007

EBPA Members and Washington State companies are invited to list in the 2007-2008 edition of the Directory of Building Materials and Services for Japan. In its 12th year, the Directory is an extremely cost-effective means of promoting your company to a national audience of builders, architects, building materials importers and related construction industry professionals throughout Japan.

DISTRIBUTION: 2,500 copies of the printed directory are provided to Japanese importers, wholesaler/dealers, architects and users (builders) free-of-charge via direct mail, at trade shows and industry events, as well as and through professional associations and industry-related organizations. The Directory is also accessible to Japanese buyers on-line via the WA State Forest Products Program web site. EBPA and Washington State Offices also use the Directory extensively as a reference and resource for Japanese companies interested in using import building materials.

FORMAT: Full-page, comprehensive, Japanese-language directory listings include vital information that Japanese companies want and need to know — contact information for you and your Japanese agent(s), business profile, product and service descriptions as well as company specifics. The directory is very user-friendly, cross-referenced by company name in English and Japanese, as well as by product or service (in Japanese). Copy/paste the links below into your web browser to see an on-line listing.

http://www.cted.wa.gov/trade/jpn_housing/Directory2000/Alphabetic_index_j.asp (Japanese)
